Thanks for attending the Homer Public Library's
Made w/Code: Intro to Coding for Girls program!
## Tools we used:

HOUR OF CODE

This is the official home of the Hour of Code event and where you'll find tutorials like the Frozen and Angry Birds game-like Java Script programs. You'll also find MANY others for beginners and those ready for more challenges. Tutorials are available year round. www.hourofcode.org

things you love are Made w/ Code — Google

This is Google's site specifically created to encourage girls to code. Find videos featuring professional women who code (including several artists), interesting beginner projects and resources for future learning. www.madewithcode.com
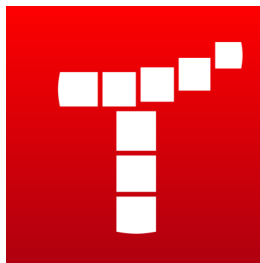

SCRATCH

SCRATCH is a a programming language and learning community, both of which are a project of MIT. The SCRATCH site hosts a large amount of freely accessible programming projects.

Lightbot app

Free and paid versions
